

## AQUATIC SPORTS ASSOCIATION OF JAMAICA

---

### MEMO

To: Coaches, Parents, Users of National Aquatic Centre

From: Shauna Jackson – Hon. Secretary

Date: August 12, 2020

Subject: Responsible Pool Usage - Quarantine

The National Aquatic Centre (NAC) has been open for two weeks and we have doing well in observing all the necessary rules and protocols. This is important for the health and safety of all who use and work at our facility.

Just a special reminder to those in the aquatic community that may be returning from overseas that you must quarantine for 14 clear days before returning to training. We have received complaints/concerns about this and must remind of the importance of this matter. Known travelers will be asked to provide proof of their return date to the country before being allowed to the Aquatic Centre. If we have reason to believe there is a breach, the athlete/user will be reported to Independence Park Ltd and the COVID-19 Task Force of the Ministry of Health. A zero-tolerance approach will be taken regarding this.

It only takes one case to put us all at risk and we all have a part to play in keeping the NAC COVID-free.

We count on your continuing support of all the implemented protocols.

Best regards,
